

## PLANTAFLO RASPBERRY SUBSTRATE // GERMANY

---

### Practice

- ✓ Special substrate for the cultivation of raspberries
- ✓ For the cultivation of raspberries in containers

### Composition

White peat + peat fibres + perlite + NPK fertiliser (18-10-20) + micronutrients + wetting agent

### Structure

Coarse - fibrous

### Chemical properties & soluble plant available nutrient elements

pH value (CaCl <sub>2</sub> )	5,4 - 6,2
Salt content (KCl)	approx. 0,3 g/l
Nitrogen (N)	30 - 70 mg/l
Phosphate (P <sub>2</sub> O <sub>5</sub> )	20 - 40 mg/l
Potassium oxide (K <sub>2</sub> O)	35 - 85 mg/l

### Packaging units

- ✓ Big Bale
- ✓ Loose
- ✓ **Minimum quantity: 20 m<sup>3</sup> or 10 pallets**
