

## PLANTAFLO **SOFT FRUIT SUBSTRATE** // GERMANY

### Practice

- ✓ Special substrate for the cultivation of soft fruits
- ✓ For the cultivation of soft fruits in containers in protected cultivation

### Composition

White peat + peat fibres + perlite + NPK fertiliser (18-10-20) + micronutrients

### Structure

Megacoarse - fibrous

### Chemical properties & soluble plant available nutrient elements

pH value (CaCl <sub>2</sub> )	5,1 - 5,9
Salt content (KCl)	approx. 0,7 g/l
Nitrogen (N)	80 - 180 mg/l
Phosphate (P <sub>2</sub> O <sub>5</sub> )	40 - 100 mg/l
Potassium oxide (K <sub>2</sub> O)	135 - 225 mg/l

### Packaging units

- ✓ Big Bale
- ✓ Loose
- ✓ **Minimum quantity: 20 m<sup>3</sup> or 10 pallets**
