

## PLANTAFLO EXPANDED CLAY // GERMANY

### Practice

✓ As drainage material in flower pots and flower tubs. Also suitable for hydroculture.

### Composition

Expanded, burnt natural clay

### Characteristics

Improves the physical properties of potting soils (air capacity, structural stability and water drainage). Prevents stagnant moisture.

### Chemical properties

pH-Wert (CaCl <sub>2</sub> )	< 5,5
Salt content (KCl)	< 1,25 g/l
Calcium (Ca)	< 450 mg/l
Sodium (Na)	< 50 mg/l
Magnesium (Mg)	< 75 mg/l
Chlorine (Cl)	< 50 mg/l
Fluorine (F)	< 5 mg/l

### Advice

Store protected from the elements, protect against drying-up or water logging, do not expose to direct sunlight. Tightly seal opened packages.
